Executive Summary:

Summary Text:

Standard DI substantive brief. Members were keenly interested in the humanitarian situation in Kosovo. C/ Team--the officer who replaced me in that position--and lead analyst provided an overview of conditions in the region and the methodology by which the Agency conducts humanitarian analysis. The session was well received. On a personal note, it was particularly pleasing for me to see members from the branch I created provide such a well received briefing. No difficult issues or interactions with the Hill to note. No follow-up required.

(U) Handwritten notes and any relevant documentation from meeting attached where available.
